Junior Full Stack Web Developer capable of developing full stack apps from mockup to rollout. Currently, I possess a strong background in the sciences, technology, and medicine. I am proficient in both Spanish and Mandarin. I am a self-starter with a keen eye for design and attention to detail. I'm seeking a position that is focused on building sophisticated web applications, experimenting with new technologies, and promotes personal growth.

LANGUAGES
Javascript, Python, HTML5, CSS3, Bash Scripting

FRAMEWORKS AND LIBRARIES
jQuery, MongoDB, Express.js, Node.js, React.js, Handlebars.js, Mustache, Socket.io, Algolia.js, MySQL

DEVELOPMENT TOOLS
Bootstrap, Git, Github, Bitbucket, Visual Studio Code, Atom, Sublime Text, Slack, Firebase, Heroku, Netlify, Trello

RESTFUL APIs
Social (Twitter, Spotify, OMDB, Giphy) Authentication and Authorization (Google) Ecommerce (Walmart, Ebay)

RELEVANT WORK EXPERIENCE

Knowledge-Is-Sexy   **04/2018 - 06/2018**
Full Stack Developer

- Web application designed to give teens inclusive, reliable, direct answers to sexual health questions based on a search query.
- Part of a team of 3 developers during the BuildHer 24 Hour Hackathon.
- Took the lead on implementing front and back end functionality of the application.
- MongoDB, Express Js, React Js, Node Js, Bootstrap, Javascript, CSS3, HTML5

Memory Game   04/2018 - 05/2018
Full Stack Developer

- Memory game using React. The app renders different images and shuffles each time the user clicks one. The user's score is incremented as they successfully click, and resets if image is clicked more than once.
- React.Js, Express.Js, Node.Js, Bootstrap, Javascript, HTML5, CSS3

CCBC Statistics   03/2018 - 04/2018
Full Stack Developer

- Full stack web application to assist prospective students in their search for the coding bootcamp they would like to attend.
- Bootstrap, CSS3, Javascript, JQuery, Node Js, Express Js, Sequelize ORM, MySQL

Friend Finder   03/2018 - 03/2018
Full-Stack Developer

- Created a fun dating app that finds the most compatible match based on the user's results to the listed survey questions.
- Express Js, Node Js, Javascript, JQuery, HTML5, CSS3

Millennial Trivia Game   12/2017 - 01/2018
Front-End Developer

- Created a fun interactive trivia game that allows the user to answer questions that are timed and to explore if they are truly tech-savvy.
- HTML5, CSS3, Javascript

OTHER WORK EXPERIENCE

Advocate Trinity Hospital, Chicago, Illinois   08/2013 - Present
Lead Vascular Ultrasound Technologist

- Guide and share information for optimal team performance of diagnostic ultrasound examinations keeping all members current on ultrasound testing procedures.
- Utilize advance ultrasound technology, physiologic, and anatomical knowledge to create accurate diagnoses and reports for cardiologists, vascular surgeons, and interventional radiologists.
- Revised departmental policies, procedures, and protocols to ensure compliance with Intersocietal Accreditation Commission.
